### CENSUS 2020 EDUCATION

More than \$1.5 trillion in federal funds, more congressional seats, and business growth all depend on the census.

#### CHILDREN ARE UNDERCOUNTED

Some groups of people are more at risk of not being counted than others. In the 2010 census, Native Americans were undercounted by 4.88%, followed by African-Americans (2.07%) and Hispanics (1.54%). By sheer quantity of people, however, children are the most likely group to be undercounted.

#### Net undercount in 2010 census

Under age 18	1.7%
African-Americans under age 18	4.6%
Hispanics under age 18	7.5%.

### VIRTUAL ADVENTURES!

As we find ourselves in this unexpected

The Census Bureau is required to keep everyone's information confidential. By law, your responses cannot be used against you by any government agency or court in any way. The Census Bureau will not share an individual's responses with immigration enforcement agencies, law enforcement agencies, or allow that information to be used to determine eligibility for government benefits. Title 13 makes it very clear that the data collected can only be used for statistical purposes - it cannot be used for anything else, including law enforcement.

In 1982, the U.S. Supreme Court confirmed that even addresses are confidential and cannot be disclosed through legal discovery or the Freedom of Information Act (FOIA). In 2010, the U.S. Justice Department determined that the Patriot Act does not override the law that protects the confidentiality of individual census responses. No court of law can subpoena census responses."
